Re: Freedom of Information request

Dear Sir or Madam,

Pursuant to the Freedom of Information Act, 5
 U.S.C. 552, I hereby request copies of the
 following documents:

--All comments submitted in response to a Notice
 of Proposed Rule Making published by the Atomic
 Energy Commission in the Federal Register on May
 23, 1959, to establish "site criteria for the
 evaluation of proposed sites for nuclear power
 and test reactors." A typed copy of the Notice of
 Proposed Rule Making is attached. The comment
 period extended until Aug. 24, 1959.

--All other documents in your files from 1957-62
 pertaining to the question of criteria for
 evaluating nuclear plant and test reactor sites.

These records will be used in research for a book
 I am writing on the history of General Public
 Utilities Corp., original owner of the Three Mile
 Island nuclear plant. GPU took an interest in the

siting regulations in 1959 because of their immediate impact on the Saxton Experimental Reactor it was planning to build, and did build, in Saxton, Pennsylvania.

Pursuant to the Freedom of Information Act, I also request "Representative of the News Media" status, which entitles me to a waiver of search fees and 100 pages of free copying. I am an established freelance writer. My first book, *Unseen Danger: A Tragedy of People, Government, and the Centralia Mine Fire*, was published in 1986 by University of Pennsylvania Press. It was republished in 2000 by iUniverse com. A copy of the Sunday New York Times Book Review review of my book is attached. I have also been a newspaper reporter for 25 years, currently with The Patriot-News in Harrisburg, Pa.

Thank you for your attention to this request.

Sincerely yours,

David DeKok
