Dear Madame/Sir:

Under the Freedom of Information Act (FOIA), please send me any information or records compiled in relation to Emphyrean Bioscience, Inc. and International Bioscience Corporation, including any records of completed or planned clinical testing of Geda Plus® conducted or funded by NIH in whole or in part. Geda Plus® is a microbicial contraceptive gel developed by International Bioscience Corporation and contains benzalkonium chloride (0.1%) and octoxynol as active ingredients.

I will pay up to \$200 for search and review fees. Please contact me if the cost of obtaining these records will be more expensive, so that I may authorize further expenditures.

Thank you very much.

Respectfully,

Laurence M. Rosen
