2. Pakistan

Foreign Minister Bhutto may be leaving office soon. At least one senior Pakistani official and a friendly diplomat say the anti-Western minister will be finished in thirty days. His departure would remove one major source of irritation in relations with India as well as with the US.

3. Soviet Union

As has been long suspected, some Soviet reconnaissance satellites have been collecting electronic intelligence as well as taking photographs.

4. Panama

The National Guard remains deployed in force both in Colon, where most of the violence hit yesterday, and in Panama City. There was a minor student demonstration in the interior today which was contained.

Funerals for the students killed in yesterday's rioting are to be held on 8 and 9 June and could be the occasion for more disturbances.

So far, the student proposal for a general strike has not taken fire.

50X1

President Robles has scheduled an address to the country tonight at 8:00 p.m. EDT, which could do much to affect the outcome of the crisis.
