RHYMING DICTIONARY
 1970 - 1971 Supplement

Introduction

The 1970-1971 Rhyming Dictionary is a cumulative machine listing of names (approximately 106,000) which have been incorporated into the 5x8 non-Soviet Personality Files during the years 1970-1971, as well as those unique Soviet surnames for 1970-1971 which have been incorporated from a Soviet Information Division File called "Soviets Abroad". Updated by cumulative monthly supplements, the 1970-1971 Supplement, together with the 1959-1969 Rhyming Dictionary (approximately 1,450,000 names), serves as a master index of names with an indication of the country or territory file in which information on a name may be located.

The columnar arrangement of the information is as follows:

- Column 1 Entry number for machine control
- Column 2 Not applicable. (See 1959-1969 Rhyming Dictionary Introduction).
- Column 3 Four-letter abbreviation for the country or territory file in which information on a personality is filed. (The expansion of each four-letter abbreviation is listed as an attachment to this introduction).
- Column 4 Surname
- Column 5 Given name(s) and / or initial(s)

The 1970-1971 Rhyming Dictionary Master Index consists of two parts which are available for use in the Central Research Branch, P2221:

- Part I - Forward Alphabetical Sort of Surname Column
- Part II - Reverse Alphabetical Sort of Surname Column
