MEMORANDUM FOR MR. MCGEORGE BUNDY THE WHITE HOUSE

NSAM 241 on Report on French SUBJECT: Gaseous Diffusion Plant

The situation which gave rise to NSAM 241 and the subsequent 5/30 memo to holders of this NSAM has significantly ameliorated. During the past year there has been no indication of any attempts by the French to endist German or Italian cooperation in the Pierrelatte project. There also is no evidence that the Germans or Italians have been giving serious consideration to such cooperation. US

AE While we shall continue to monitor the situation from an intelligence standpoint, in view of these facts, I request authorization to discontinue reporting on this NSAM, including possible measures for inhibiting XRAE 11-3 XR DEFIR-17 YRAE I-1 WE WR COMMOR bilateral cooperation.
