Mr. Geide:

RE: INTRUSION INTO AIR FORCE SERVER

On January 6, 1998 at approximately 2:15 p.m., [redacted] Watch and Threat Analysis Unit (WTAU), received a secure call from [redacted] also of WTAU, advising that the Air Force Server had been compromised by an individual(s) who had gained access into the password file. The Air Force server is on an unclas network.

[redacted] advised that [redacted] would be contacting the WTAU with additional information as it was received. [redacted] will in turn give me a call with any additional developments. You will be kept apprised.

Project

The grid consists of 12 columns and 20 rows. The columns are organized as follows:

- Column 1: A narrow column for a primary identifier.
- Column 2: A wide column for detailed task descriptions.
- Column 3: A narrow column for a secondary identifier.
- Column 4: A narrow column for a date or time value.
- Column 5: A narrow column for a numerical value.
- Column 6: A narrow column for a numerical value.
- Column 7: A narrow column for a numerical value.
- Column 8: A narrow column for a numerical value.
- Column 9: A narrow column for a numerical value.
- Column 10: A narrow column for a numerical value.
- Column 11: A narrow column for a numerical value.
- Column 12: A narrow column for a numerical value.

Each cell in the grid is defined by solid lines, with a dashed line running vertically through the center of each row. The grid is currently blank, with no data entered.
