

The following is
(S//REL) Good afternoon, sir, [REDACTED], with a brief overview of our initial operational assessment framework in support of Operation GLOWING SYMPHONY.

(U//FOUO) The framework has been developed with the assistance and input of numerous staff elements within JTF-ARES and Cyber Command.

(U//FOUO) Overall, we've decomposed the operational assessment into two primary frameworks: the task accomplishment framework (shown here) for evaluating how well we execute the operation, and the operational effectiveness framework (shown on the next slide) that assesses how well the operation achieves the intended effects.

(U//FOUO) On this slide, the task accomplishment framework is broken down by phase from the CONOP, with supporting measures of performance and indicators.

(U//FOUO) At this time, there is no relative priority implied by the ordering of the indicators.

(U//FOUO) We expect nearly all of the information required for this portion of the framework to be available from mission reporting.

(U) Sir, if you have no questions on this slide, we'll move to the second portion of the framework.

(S//REL) Sir, this slide shows the framework for evaluating the operational effectiveness of OGS, a significantly more difficult task.

(U//FOUO) The foundation of the framework is the set of objectives and intended effects from the CONOP.

(U//FOUO) For each intended effect, there are one or two measures of effectiveness, or MOE, with supporting indicators.

(U//FOUO) The ordering of the indicators under each MOE is based upon expected availability of the data and the strength of the indicator relative to the MOE.

(S//REL) Steps ahead include continued identification of relevant and available data sources and continued refinement of the framework through further coordination with JTF-ARES, Cyber Command, and external entity staff elements.

(U) Sir, pending any questions, this concludes my briefing.

~~(S//REL)~~ Good morning, sir, [REDACTED]. The following is brief overview of our draft operational assessment framework in support of Operation GLOWING SYMPHONY.

~~(U//FOUO)~~ Overall, we've decomposed the operational assessment into two primary frameworks: the task accomplishment framework (shown here) for evaluating how well we execute the operation, and the operational effectiveness framework (shown on the next slide) that assesses how well the operation achieves the intended effects.

~~(U//FOUO)~~ On this slide, the task accomplishment framework is broken down by phase from the CONOP, with supporting measures of performance and indicators.

~~(U//FOUO)~~ In this framework, there is no relative priority implied by the ordering of the indicators.

~~(U//FOUO)~~ We expect nearly all of the information required for this portion of the framework to be available from mission reporting.

~~(U)~~ Sir, if you have no questions on this slide, we'll move to the second portion of the framework.

~~(S//REL)~~ Sir, this slide shows the framework for evaluating the operational effectiveness of OGS, a significantly more difficult task.

~~(U//FOUO)~~ The foundation of the framework is the set of objectives and intended effects from the CONOP.

~~(U//FOUO)~~ For each intended effect, there are one or two measures of effectiveness, or MOE, with supporting indicators.

~~(U//FOUO)~~ The ordering of the indicators under each MOE is based upon expected availability of the data and the degree to which the indicator informs the MOE.

~~(S//REL)~~ Steps ahead include continued identification of relevant and available data sources and continued refinement of the framework through further coordination with JTF-ARES, Cyber Command, and external entity staff elements.

~~(U)~~ Sir, pending any questions, this concludes my portion of the briefing.

(S//REL) Good evening, sir, [REDACTED]. Two weeks ago, I briefed the Operation GLOWING SYMPHONY operational assessment framework, which consists of the task accomplishment framework for evaluating how well we're executing the operation, and the operational effectiveness framework that will assess how well the operation is achieving the intended effects.

(U//FOUO) This evening, I'll focus on our assessment of task accomplishment thus far. I will not be briefing the operational effectiveness portion of the framework because we are still awaiting data and intelligence reflections.

(U//FOUO) The framework is broken down by phase from the CONOP, with supporting measures of performance and indicators. Actual numerical data for each indicator is shown in blue. After each indicator description are the Coalition partners represented in the data. The stop light circle next to each indicator assesses that particular measure. The gray circles represent indicators that are not important for assessing task accomplishment, but still contribute to the understanding of Coalition activities. The full legend is shown on the bottom left of the slide.

(b) (1) Sec. 1.4 (a) (d) (g)

(TS//SI//REL) Overall, we assess the task execution of OGS as green, or successful. All evaluated indicators are green, except for [REDACTED] [REDACTED] which was assessed as amber. The goal in the CONOP for that task was to be completed [REDACTED] however, overall, the [REDACTED] was still achieved [REDACTED] [REDACTED] had no negative impact on the mission.

(U) Sir, I'll give you a few moments to look at the slide....

(U) Next slide.

~~TOP SECRET//SI//REL TO USA, FVEY~~

(TS//SI//REL) Sir, overall, the Coalition [REDACTED]. The breakdown of the results is shown in the pie chart on the right. [REDACTED]

[REDACTED] demonstrating a high success rate.

(TS//SI//REL) We also observed very effective coordination between Coalition partners. In a number of cases, [REDACTED]

(TS//SI//REL) Finally, at least [REDACTED]

(U) Sir, pending any questions, this concludes my portion of the briefing.
