~~NODIS~~

FOR AMBASSADOR FROM UNDER SECRETARY RICHARDSON

Ref: A. MOSCOW 2381
B. MOSCOW 2355

1. It appears highly doubtful Soviets intend to give us any satisfaction in this matter. Emphasis in TUMS discussions should center on our instance that signal be discontinued and our concern over fact many of our employees now aware of signal and personal medical problems being linked to signal.

2. In pursuing discussion with Soviets, there is no objection to disclosures set forth in reference B, paragraph six. There is no objection to furnishing a chart showing the various modes and when they are active. Department officers question value of furnishing signal strengths which do not support our claim that they exceed minimum Soviet radiation safety levels.
