GUIDED MISSILE INTELLIGENCE COMMITTEE

7-1514
I.S. Cont. No.
AFCIN, HQ USAF

29 July 1957

MEMORANDUM FOR: Secretary, Intelligence Advisory Committee

SUBJECT : Annual Report to the NSC on the Status of
the Foreign Intelligence Program

1. In accordance with IAC-D-55/12.2, dated 19 July 1957, the Guided Missile Intelligence Committee hereby submits its contribution on the Status of the Foreign Intelligence Program.

25X1A
NSC

2. Significant information on the Soviet guided missile program has been obtained in all basic categories during Fiscal Year 1957.

in the surface-to-surface guided missile field significant developments in the Soviet Research and Development program have been reported to the Intelligence Advisory Committee. During the past year there have been definite associations established between the Soviet guided missile and atomic energy programs.

25X1C

3. The recent [redacted] reviewed and assessed Soviet progress in the guided missile program. A summary of agreements, minor differences and recommendations resulting from [redacted] conference has been submitted to and approved by the Intelligence Advisory Committee.

25X1C

4. Although the information received during the past year has increased our general knowledge of the Soviet guided missile program, we still lack specific information regarding the characteristics of missile systems in existence or under development. There is almost a complete lack of evidence on Soviet missile production capabilities and facilities. Specific evidence is lacking on Soviet military doctrine pertaining to the current and future relationship of guided missiles to a balanced military program.
