

~~TOP SECRET~~

EXERCISE MIGHTY DERRINGER

UNCLASSIFIED

Subject: Event Mighty Derringer, Sitrep No. 1 OCONUS

Prepared at 0015 PST, on 12/06/86

Current Situation

Main DOE party has arrived with 118 personnel in country; however, 47 personnel of the initial main party deployment are held in border town, US side for phase-in purposes. Presently in the pre-access phase.

Status of Specific Topics

Command and Control

CP is presently being set up and is anticipated to be operational 0600 PST 12/06/86. 24-Hour action officer in field CP has been established.

Intelligence

Series of very important, time-urgent technical questions have been directed to DTA for resolution.

DOE is represented on the in-country intelligence fusion center established 12/05/86.

Disablement

In-country storage for high explosives has been temporarily resolved.

Weather

Cold weather, snow is predicted.

Hazards and Effects

(b) (1)

Preliminary radiation and blast effects calculations indicate evacuation Taco Caliente and 3 mile radius around GZ. A significant (greater than 20 miles) downwind evacuation will probably be required prior to attempting access, if possibility of nuclear detonation exists.

Communications

Clear text traffic to DOE field operations is accessed through 295-6124 (FTS 575-6124) and clear FAX is through 295-6124 (FTS 575-6124).
